Ms. Dolly Potter
Environmental Engineer
Solvay
Box 1167
Green River, WY 82935

Permit Application Receipt Notice
Application No. AP-W77

Dear Ms. Potter:

This is to confirm the receipt of your permit application to construct an expansion of Solvay Soda Ash Joint Venture's soda ash plant to produce an additional 1.2 million tons/year of soda ash at the facility located west of Green River in Sweetwater County, Wyoming. The application was received June 5, 1997. Please refer to the Application Number, AP-W77, in any future correspondence regarding this application. Also be advised that on July 1, 1994, the Division began assessing fees for permit review.

For your information, a permit to construct or modify must be issued prior to any work beginning on the facility. The Division defines earthwork, pouring of foundations, etc. to be work on the facility and therefore a violation of Section 21(a)(1) requirements, when conducted without a permit.

The application will be reviewed within thirty(30) days of receipt, and you will be notified as to whether or not the application is complete. If the application is complete, a decision will be made to either approve or disapprove your request within sixty(60) days of the determination that the application is complete. Once the decision to approve your request is made, a thirty(30) day public comment period is required, after such time a permit will be issued. If the decision is made to disapprove your request, you will be so notified and provided with the reason(s) for denial.

If you should have any questions concerning this matter, please feel free to contact this office.

Sincerely,

Bernard J. Dailey
Engineering Supervisor
Air Quality Division
